Online Accessibility

Upwork strives to provide an accessible digital experience for our users.

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for website providers to improve online accessibility for people with disabilities. Upwork has voluntarily undertaken efforts to comply with, and in some cases exceed, the WCAG Guidelines 2.1 Level AA, and employs formal accessibility quality assurance methods to ensure accessibility of Upwork's digital platform.

Our efforts to improve online accessibility are ongoing. In the event that a user with a disability experiences accessibility issues with our website or mobile application, please notify us by sending an email to accessibilitycoordinator@upwork.com or sending a letter addressed to: Attn: Accessibility Coordinator, 655 Montgomery Street, Suite 490, DPT 17022, San Francisco, CA 94111-2676, USA. In your communication to us, please specify the nature of the accessibility difficulty, including the web address or mobile application that may have presented an accessibility challenge.

Third-Party Websites and Elements

Upwork's website may contain sections or links to webpages that are hosted or controlled/powered by third parties, or engage third party plugins or services. WCAG compliance for these sections will be controlled by these third party providers, not by Upwork. Upwork does not make representations with regard to the accessibility of third-party websites and may not be able to remediate accessibility barriers on such websites. However, Upwork continually works to identify and adopt more accessible alternatives to such sections and sites wherever feasible.
