b. Non-Identifying Information and De-Identified Information

- **Non-Identifying Information/Usernames:** We also may collect other information that does not identify you directly, such as zip codes, demographic data, information about your use of the Service, and general project-related data (“**Non-Identifying Information**”). We may combine information collected from Upwork users, whether they are registered or not (“**Upwork Users**”). In some cases, we may render Personal Information (generally, email address) into a form of Non-Identifying Information referred to in this Privacy Policy as “**Hashed Information**.” This is typically accomplished using a mathematical process (commonly known as a hash function) to convert information into a code. While the code does not identify you directly, it may be used by Upwork’s partners to connect your activity and interests.

- **Combination of Personal and Non-Identifying Information:** We may combine your Personal Information with Non-Identifying Information, but Upwork will treat the combined information as Personal Information.
- **De-Identified Information:** We may also de-identify or aggregate information and convert it into non-personal information so that it can no longer reasonably be used to identify you (“**De-Identified Information**”). We may use De-Identified Information for any of the purposes described in the “We Use Information We Collect” section below. We will maintain and use De-Identified Information in de-identified form and will not attempt to reidentify the information, except to confirm our de-identification processes or unless required by law.

c. Information Collected Automatically

Like other online companies, we receive technical information when you use our Services. We use these technologies to analyze how people use the Service, to improve how our Site functions, to save your log-in information for future sessions, and to serve you with advertisements that may interest you.

Upwork and its partners use cookies or similar technologies to analyze trends, administer the website, track users’ movement around the website, the desktop app, and the mobile app, and to gather demographic information about our user base as a whole. The technology used to collect information automatically from Upwork Users may include cookies, web beacons, and embedded scripts. In addition, we and our marketing partners, affiliates, analytics, and service providers may use a variety of other technologies (such as tags) that collect similar information for security and fraud detection purposes and we may use third parties to perform these services on our behalf.

For further information on cookies and how they are used for the Service, please visit our Cookie Policy at www.upwork.com/legal#cookie-policy.

d. Work Diaries and Work View

With your permission, we collect information about a Freelancer’s work for a Client, including automatically collected information about work on a particular project. If a Freelancer enables Work Diaries, we will share Work Diaries with the relevant Client and Agency. We tell Freelancers when we are capturing information for the Work Diary and allow Freelancers to block such data sharing.

As part of the Service, when enabled by a Freelancer, we collect information about a Freelancer’s work on a project for a Client, including information that may be considered personal information. This feature is known as Work Diary. Work Diaries include information provided by the Freelancer, such as a memo, as well as automatically gathered information about work on a project, such as number of mouseclicks and keyboard strokes and regularly taken screenshots (which may include a webcam picture of you if you have enabled this feature in your settings). In order to use Work Diaries, you must download and install the Team App software from www.upwork.com.

We will share information contained in Work Diaries with the relevant Client and with any manager or administrator of any applicable Freelancer Agency. We inform Freelancers each time we capture information for Work Diary. As set forth in our Terms of Service, End User License Agreement, and help

pages on the Site, a Freelancer may choose to block or delete the screen shot and associated data for a recorded work interval, but then the Freelancer may not be paid for that work interval.

e. Analytics Providers, Ad Servers and Similar Third Parties

We may work with advertising agencies and vendors who use technology to help us understand how people use our Site. These vendors may use technologies to serve you advertisements that may interest you. You can choose to opt out of receiving certain interest-based advertising.

Upwork works with ad networks, ad agencies, analytics service providers and other vendors to provide us with information regarding traffic on the Service, including pages viewed and the actions taken when visiting the Service; to serve our advertisements on other websites, within mobile apps and elsewhere online; and to provide us with information regarding the use of the Service and the effectiveness of our advertisements. Our service providers may collect certain information about your visits to and activity on the Service as well as other websites or services, they may set and access their own tracking technologies on your device (including cookies and web beacons), and may use that information to show you targeted advertisements. Some of these parties may collect Personal Information when you visit the Service or other online websites and services. We may also share certain Non-Identifying Information with these parties, including Hashed Information, in connection with the services they provide to us. If you wish to opt out of interest-based advertising from participating companies, click [here](#) (or if located in the European Union, click [here](#)). You must opt out on each device and each browser where you want your choice to apply. If you choose to opt out, please note you will continue to receive advertisements, but they may be less relevant to you.

While we may use a variety of service providers to perform advertising services, some of these companies are members of the Network Advertising Initiative (“**NAI**”) or the Digital Advertising Alliance (“**DAA**”) Self-Regulatory Program for Online Behavioral Advertising. You may want to visit http://www.networkadvertising.org/managing/opt_out.asp, which provides information regarding targeted advertising and the “opt-out” procedures of NAI members. You may also want to visit <http://www.aboutads.info/choices/>, which provides information regarding targeted advertising and offers an “opt-out” by participating companies in the DAA Self-Regulatory Program.

f. Do Not Track Signals and GPC

Please note that your browser setting may allow you to automatically transmit a “Do Not Track” signal to websites and online services you visit. Upwork does not generally alter its practices when it receives a “Do Not Track” signal from a visitor’s browser. To find out more about “Do Not Track,” please visit <http://www.allaboutdnt.com>.

Global Privacy Control (GPC) is a technical specification that you can use to inform websites of your privacy preferences regarding ad trackers. If you do choose to set up GPC, it may impact the functionality of the Site, but we honor the GPC signal on a per-browser basis automatically in your cookie preferences.

g. Children

The Service is general audience and intended for users 18 and older. We do not knowingly collect Personal Information from anyone younger than age 18. If we become aware that a child younger than 18 has provided us with Personal Information, we will use commercially reasonable efforts to delete such information from our files. If you are the parent or legal guardian of a child younger than age 18 and believe that Upwork has collected Personal Information from your child, please contact us at:

legalnotices@upwork.com.

We may also use Device Identifiers to identify Upwork Users.
- For the purposes disclosed at the time you provide your information, with your consent, and as further described in this Privacy Policy.
- To Honor Our Contractual Commitments to You. Much of our processing of Personal Information is to meet our contractual obligations to our investors, or to take steps at Users' request in anticipation of entering into a contract with them.
- For Our Legitimate Interests. In many cases, we handle Personal Information on the grounds that it furthers our legitimate interests in commercial activities, such as the following, in ways that are not overridden by the interests or fundamental rights and freedoms of the affected individuals:

- Providing our Site and Service.
- Detecting security incidents, protecting against malicious, deceptive, fraudulent or illegal activity, and prosecuting those responsible for that activity.
- Measuring interest and engagement in our Services.
- Short-term, transient use, such as contextual customization of ads.
- Improving, upgrading or enhancing our Services.
- Developing new products and services.
- Ensuring internal quality control and safety.
- Authenticating and verifying individual identities.
- Debugging to identify and repair errors with our Services.
- Auditing relating to interactions, transactions and other compliance activities.

- Communications, including marketing and responding to your inquiries about our services.
- Addressing information security needs and protecting our Users, Upwork, and others.
- Managing legal issues.
- To Comply with Legal Obligations. We need to use and disclose Personal Information in certain ways to comply with our legal obligations.

3. DATA RETENTION

Unless you request that we delete certain information (see [Your Choices and Rights](#) below), we will only retain your personal information for as long as is necessary to fulfill the purposes for which it was collected, including for the purposes of satisfying any legal, regulatory, accounting, or reporting requirements, as well as ongoing fraud prevention, backup, and business continuity purposes.

4. INFORMATION SHARING AND DISCLOSURE

We do not sell your Personal Information for monetary consideration, and we do not share your Personal Information with third parties for those third parties' marketing purposes unless we first provide you with the opportunity to opt-in to or opt-out of such sharing. However, we may use technologies on our Site for the purposes of advertising or marketing to you and understanding how you interact with our ads. This may be considered a "sale" or "sharing" of personal information for targeted advertising under applicable data protection laws. We may also share information we have collected about you, including Personal Information, as disclosed at the time you provide your information, with your consent, as otherwise described in this Privacy Policy, or for the following business or commercial purposes:

<p>Upwork Users</p>	<p>For Freelancers who have entered into a contract with a Client or who have elected to participate in Upwork Payroll, we may share their information with Clients, Agencies, and Upwork payroll vendors. For Freelancers who choose to view a job post or submit a proposal via the Service, we may share their information with the applicable Client(s). For Freelancers who have made their profiles publicly visible, we may share their information with Clients, Agencies, Partners, and Developers.</p> <p>Note that if a Freelancer is suspended from the Upwork Service, we may share that information with Clients for whom that Freelancer has worked or submitted proposals for work. We may also share information with Agencies to whom Freelancers are associated for a particular work project.</p> <p>For clients who have entered into a service contract or agreed to use Upwork Payroll with another user, we may share your information in order to complete the transaction or to facilitate the resolution of a claim or dispute. The user receiving your information is not allowed to use it for purposes unrelated to the transaction, such as to contact you for marketing purposes, unless you have expressly consented to it.</p>
<p>Service Providers</p>	<p>We may employ service providers and individuals to facilitate our Service, to provide the Service on our behalf, to perform Service-related services (e.g., without limitation, maintenance services, database management, web analytics and online advertising, payment processing, fraud detection and improvement of Upwork’s features) or to assist us in analyzing how our Service is used. These Service providers may include analytics companies, advertising partners, payment processors, identity verification companies, security companies, generative AI partners, or other merchants. These third parties may have access to your Personal Information in order to perform these tasks on our behalf.</p>
<p>Generative AI Partners</p>	<p>We provide certain features of our Service by integrating trusted generative AI service providers. We may share the information you provide while using these features with these generative AI service providers, as well as additional information necessary to utilize the feature.</p> <p>Where Upwork uses this information to power features, we leverage certain treatments of the data appropriate for the feature, including but not limited to, first removing personal information and only using public data.</p> <p>The Service includes a two-sided marketplace, which results in platform information pertaining to both parties on either side of an interaction. For example, a Client’s review is inherently about a Freelancer, a Client job post is work history for a Freelancer, and Client spend is part of earning history for a Freelancer. Thus, if a Client or Freelancer chooses to use our generative AI features, the platform information associated with that user’s account – including information described above – may be used to power those features.</p>

Data Privacy Framework Notice

Upwork complies with the EU-U.S. Data Privacy Framework (EU-U.S. DPF) and the UK Extension to the EU-U.S. DPF, and the Swiss-U.S. Data Privacy Framework (Swiss-U.S. DPF) as set forth by the U.S. Department of Commerce. Upwork has certified to the U.S. Department of Commerce that it adheres to the EU-U.S. Data Privacy Framework Principles (EU-U.S. DPF Principles) with regard to the processing of personal data received from the European Union and the United Kingdom in reliance on the EU-U.S. DPF and the UK Extension to the EU-U.S. DPF. Upwork has certified to the U.S. Department of Commerce that it adheres to the Swiss-U.S. Data Privacy Framework Principles (Swiss-U.S. DPF Principles) with regard to the processing of personal data received from Switzerland in reliance on the Swiss-U.S. DPF. If there is any conflict between the terms in this privacy policy and the EU-U.S. DPF Principles and/or the Swiss-U.S. DPF Principles, the Principles shall govern. The Upwork entities certified under the Data Privacy Framework (DPF) are Upwork Inc., Upwork Global Inc., Upwork Talent Group Inc., Elance Inc., and Upwork Escrow Inc. To learn more about the DPF Program, and to view our certification, please visit <https://www.dataprivacyframework.gov/>.

When Upwork receives Personal Information under the DPF and then transfers it to a third party service provider acting as an agent on their behalf, Upwork may have certain responsibilities under the DPF if both (i) the agent processes the information in a manner inconsistent with the DPF and (ii) Upwork or its affiliate is responsible for the event giving rise to the damage.

Covered European residents should contact Upwork at the contact information below regarding Upwork's compliance with the DPF. Upwork will attempt to answer your questions and satisfy your concerns in a timely and complete manner as soon as possible. If, after discussing the matter with Upwork, your issue or complaint is not resolved, Upwork has agreed to participate in the DPF independent dispute resolution mechanisms listed below, free of charge to you. PLEASE CONTACT UPWORK FIRST.

For other Personal Information Upwork receives under the DPF, we have committed to refer unresolved privacy complaints under the DPF Principles to an independent dispute resolution mechanism, JAMS Data Privacy Framework Dispute Resolution, operated by JAMS. If you do not receive timely acknowledgment of your complaint, or if your complaint is not satisfactorily addressed, please visit <https://www.jamsadr.com/dpf-dispute-resolution> for more information and to file a complaint.

If your complaint still is not resolved through these channels, under limited circumstances, an additional binding arbitration option may be available before a DPF panel, as described at <https://www.dataprivacyframework.gov/s/>. Every individual also has a right to lodge a complaint with the relevant supervisory authority.

The Federal Trade Commission has jurisdiction over Upwork's compliance with the EU-U.S. DPF and the UK Extension to the EU-U.S. DPF and the Swiss-U.S. DPF. In cases of onward transfers to third parties, Upwork has responsibility for the processing of personal information we receive under the DPF Principles and subsequently transfers to a third party acting as an agent on our behalf. To the extent required by the DPF, Upwork shall remain liable under the DPF Principles if our agent processes such

personal information in a manner inconsistent with the DPF Principles, unless we are able to prove that we are not responsible for the event giving rise to the damage.
